Press release

Stockholm, March 21, 2024

Essity completes divestment of its shares in Vinda

The hygiene and health company Essity has today completed the divestment of its entire holding of 51.59% of shares in the Asian hygiene company Vinda International Holdings Limited (Vinda) for HKD 23.50 per share. The sales proceeds amounted to HKD 14.6bn (approximately SEK 19bn). Essity will retain a presence in Asia and in Vinda through continued licensing of Essity's brands.

On December 15, 2023, Essity communicated that Isola Castle Ltd, a company indirectly wholly owned by Asia Pacific Resources International Limited (APRIL), had announced that it intended to make a pre-conditional public offer to the shareholders of Vinda to acquire 100% of the company's issued shares for HKD 23.50 per share. Essity signed an irrevocable undertaking to accept the offer in respect of all of its 51.59% shareholding. The offer was announced on March 8, 2024, and Essity has accepted it in line with its undertaking. The price in the public offer will correspond to an equity value for all shares of approximately HKD 28.3bn (SEK 37bn).

"Essity is now in better shape than ever. Following the divestment of Vinda, the categories with the highest margins and lowest capital intensity account for a larger part of the company. The company's pulp consumption has halved, and we have a more attractive portfolio with higher profitability and lower volatility. The transaction reduced Consumer Tissue's share of net sales in 2023 from 41% to 33%. We look forward to continuing to grow a portfolio of more value-generating categories," says Magnus Groth, President and CEO for Essity.

2024 – Essity in Better Shape than Ever

More efficient production
